

### Copper Glass Flush Mount

#### BEFORE YOU BEGIN

Switch off power at the breaker before beginning any electrical installation work. If you are not comfortable with mains wiring, we recommend hiring a licensed electrician. Confirm your ceiling, wall, or surface can support the fixture's weight before mounting.

#### INSTALLATION STEPS

1. Rondo fixes directly to a ceiling junction box using the included mounting plate — no drop rod to set, no cables to trim.
2. Switch the circuit off at the breaker before beginning any wiring work.
3. We recommend a licensed electrician if you are not comfortable with mains wiring.
4. Hardwired, 110-120V.
