

Fluted Alabaster Wall Light

BEFORE YOU BEGIN

Switch off power at the breaker before beginning any electrical installation work. If you are not comfortable with mains wiring, we recommend hiring a licensed electrician. Confirm your ceiling, wall, or surface can support the fixture's weight before mounting.

INSTALLATION STEPS

1. Hardwired wall mount requiring connection to an external wall switch — there is no plug-in option.
2. Professional electrician installation is recommended.
3. Indoor use only, IP20 rated for dry locations.
