

Six-Arm LED Chandelier

BEFORE YOU BEGIN

Switch off power at the breaker before beginning any electrical installation work. If you are not comfortable with mains wiring, we recommend hiring a licensed electrician. Confirm your ceiling, wall, or surface can support the fixture's weight before mounting.

INSTALLATION STEPS

1. Hardwires to a standard ceiling junction box.
2. Switch the circuit off at the breaker first, and use a licensed electrician if you are not comfortable with mains wiring.
3. 110-120V hardwired.
